Index to the *Handlian*, 1921-2021* Yearbook of John Handley High School

John Handley High School serves as the high school for students in the city of Winchester, Virginia. It was built with money from the estate of Judge John Handley (1835-1895). Winchester students originally used the building known as the John Kerr School, but the number of students in the city quickly outgrew this structure. In 1919, the School Board placed temporary buildings on land that would later become the campus of Handley High School. Building of the High School began shortly afterwards, and the school officially opened in September 1923. It remains an endowed public school.

This index is compiled by Archives staff and volunteers and contains a list of graduating seniors for the years 1921 to 2021. (*There was no yearbook in 1922). Subsequent years will be added in the future.

Yearbooks are available to researchers in the Archives Reading Room. Please note that some students do not have pictures. Any questions or corrections should be directed to the Archives Staff at archives@handleyregional.org.

Search Tip: The index is organized alphabetically by last name. To search for a name, press CTRL+F (Windows) or CMD+F (MAC). Type the name in the search box. The first match will be highlighted. Press Enter or click the Next button to navigate through the results.
