

Adult Programming Assistant

Handley Library, Information Services

Flexible scheduling

Assist with tasks related to adult programming. Tasks may include preparing creative materials for the programs, helping with physical preparations, working with patrons during an event and any other tasks needed for the success of the adult program.

This position requires the ability to work one-on-one with library staff, to be able to be approached by patrons and assist them as needed, to understand and follow multi-step directions, and to be organized and precise in the completion of tasks. A creative mindset is preferred but not required.

It will provide the volunteer with a fun and creative outlet as well as the opportunity to learn more about the library and acquire new skills.

For questions about this volunteer position, please contact Alyssa Grant, Information Services Coordinator agrant@handleyregional.org
