

## Mr. Groundhog's Day

Mr. Groundhog is inside his home, warm and fast asleep.

*(Lie head down on hands and close eyes)*

But he'll wake up and poke his head out for one tiny peep.

*(Slowly stand up and look around cautiously)*

If the day is cloudy and cool,  
He'll go for a stroll.

*(Walk around slowly, looking at everything)*

But if the sun is shining bright -  
Pop! Back in his hole!

*(Jump into a curled-up position with hands covering head.)*
